

# Massively Parallel Sequencing/Sequencing By Synthesis in Forensic DNA Analysis and Illumina's MiSeq FGx Developmental Validation

International Forensic Research Institute

## A Presentation by Steve Lee, Ph.D.

He was formerly the Director of R&D at CA Dept of Justice DNA Laboratory from 1994-2000 and was Director of R&D at MiraiBio from 2000-2005. He is a full member of the American Association for the Advancement of Science, the California Association of Criminalists, a Fellow of the Criminalistics Division of the American Academy of Forensic Sciences, and is an American Society of Crime Laboratory Directors Laboratory Accreditation Board certified inspector.

He also served on the FBI Technical Working Group on DNA Analysis Methods group from 1994-2000. Steve was awarded the 2015 AAFS Criminalistics Meritorious Service Award, conducted his sabbatical in the laboratory of Dr. Bruce McCord and is now on professional leaves from SJSU through Fall 2017. When not working on new scientific collaborations or teaching, Steve enjoys playing in a jazz group with Dr. McCord, fitness and is a wine enthusiast.

**Wednesday,  
Oct. 19, 2016**

3 p.m.

SIPA - 100
